

# Rules for membership in T-RAX

*Last revised: 2025-10-13*

- To be allowed in the Fuse labs and workshops you must have completed the general safety course
- In order to use the machines in each lab or workshop you need an additional safety course for each area.
- If an accident occurs resulting in personal injuries, contact the T-RAX board as soon as possible.
- All members are obligated to follow the rules and guidelines set by the school and student union. Fuse Specific rules can be found on the Fuse canvas. [Fuse General Rules](#)
- Members have prioritized access in the Fuse-lab between 17:00 -24:00 on weekdays and between 08:00-24:00 on weekends. No machines are allowed to be used between 00:00 and 8:00.
- Any people that are let into the areas are the responsibility of the person who let them in. You are allowed to show visitors around in any area you have access to except the metal and wood workshops.
- Alcohol and drugs are forbidden in the FUSE area. Persons under the influence of alcohol or drugs are not allowed in the labs or workshops.
- Members are not allowed to manufacture objects in the FUSE area with the intention to sell or do work for money. Exceptions can be authorized by the T-RAX board.
- The manufacturing, renovation and modification of weapons is strictly forbidden.
- It is not allowed to bring into or store chemicals in the labs and workshops.
- Members are not allowed to repair broken machines or equipment.
- Safety courses can only be held by the T-RAX board or members authorized by the board.
- Members are obligated to report broken machines and equipment in the damage log. Mark damaged machines and equipment to avoid unnecessary injuries to others.
- Materials used must be paid for. Large amounts must be approved by the T-RAX board before work begins and payment is made. The material bought must be intended to be processed mainly in Fuse.
- Tools stay in their respective lab or workshop, unless authorized by the T-RAX board.
- The last one to leave a lab or workshop is responsible for turning off power to

machinery.

- Food and drinks are not allowed in the lab and workshop areas. Water is allowed to be drunk out of a screw capped/sealable container.
- Clean up your workspace after yourself.
- If you are more than 5 minutes late to a course or fail to stay for the entire duration, you will automatically fail that instance of the course. You will also get a warning, if you get two warnings you will not be able to attend any courses for the current study period or the next. Any active sign-ups for courses will be relinquished.

All members are also obligated to follow and stay updated on this document. The latest versions can be found on the T-RAX website.

The T-RAX board has the right to edit all rules when needed.

If any rules are broken the board has the right to take action. The penalty will depend on the rule violation and can range from a verbal warning to suspension. If the violation falls under Swedish law, the violation will be reported to the Swedish police.
